PREAMBLE

This preamble shall never be amended or destroyed in the history of this Association.

Within the framework of this Association shall be preserved forever the theory and belief that all humans are born equal irrespective of race, creed, colour or nationality and that it is the full intent of our God for all mankind to reside together in peace and unison with complete freedom and dignity for man.

It is the intent of this body to preserve and advance these principles by joining together the nations and continents of the world through the preservation by usage of mankind's most ancient weapon, the bow and arrows, in games designed to challenge individual skills while creating a better understanding.

Further, this body recognises the sovereignty of each nation to administer such programmes as it deems necessary and desirable for the benefit of archery within the nation and the world.

G. Tournament Officials

1. Tournament officials such as the Shoot/Tournament Director, the Field Captain, Range Marshals, the Technical Control Officer, etc. shall be appointed.
Appointment of these tournament officials at IFAA World and Regional Tournaments shall be subject to the Vice-President's approval.
2. The Tournament Director shall appoint the "responsible adults" who will accompany the Cub archers (and any other age groups if so required by local legislation). The "responsible adult" shall have the necessary compliance certificates if so required by local legislation and shall have sound knowledge of the rules of the IFAA archery games.
3. A Technical Control Officer (TCO) shall be appointed by the tournament organisers before the tournament. He shall be assisted by at least two persons, who shall be archers with sound knowledge of archery equipment. The functions of the TCO and his personnel are defined under Article 6 of the Policy section.
4. At every tournament a Field Captain shall be appointed by the Tournament Organiser and/or Tournament Director and it shall be his duty to: -
 - a. Appoint Range Marshals to supervise his duties on the individual ranges.
 - b. Designate the targets from which each group shall start.
 - c. Have the option in any tournament to set a time limit, either by target or round when such a tournament must be completed.
 - d. Assure that each butt has sufficient spare target faces to replace "shot-out" faces that no longer allow for decisive scoring.

H. Tournament Rules

1. General tournament rules

- a. All bows and equipment will be inspected and shall be marked as having been inspected prior to the start of the tournament. Each competitor shall present his/her equipment to the Technical Control for equipment check at the designated time and place.
It is the responsibility of the archer to maintain his/her equipment within the specified IFAA rules. Failure to do so may result in a protest by another archer which may result in disqualification.
- b. An archer shall compete in the style he/she has pre-registered in. A change in style on the day of registration at the tournament shall only be allowed if there is available placing in that style.
(Exec Note: For WFAC & WBHC: less than 168 registrations in the event only one range is used, and in the WBHC less than 336 registrations if two similar ranges are used (see article IV H 2a of the By-Laws)).
- c. Juniors shall shoot in their own groups.
- d. Multiple entries by a single archer in any one tournament is allowed provided the tournament is advertised as a multiple entry Tournament and the archer can be accommodated in the shooting detail that includes his shooting division(s).
Separate entry fees are payable for each shooting style entered. The score for each shooting style shall be recorded separately.
Exec note: An archer shall shoot with the other archers in the same division in the same detail and not shoot in another detail or with other divisions. If that cannot be accommodated, the archers shall compete in a single division only.

- e. Competitors may not shoot at practice targets during the course of a round except at an official break.
 - f. Archers must shoot for the full duration of a Tournament as laid down in the Tournament specifications. Any scores made by an archer who does not complete the Tournament will not be taken into consideration for any awards.
 - g. The decision to discontinue a Tournament, or part thereof, shall be a joint decision taken by the IFAA Vice-President (or in his absence his delegated representative), the Tournament Director and the Field Captain.
 - h. No archer shall draw a bow with the bow hand above the top of the head, when drawing on a horizontal plane.
 - i. The use of equipment that in any way reduces or blocks out the archer's senses (i.e. hearing ability, visual ability, etc.), thus reducing his/her awareness of the surrounding area and distracting from the archery game and safety regulations is not permitted.
 - j. Competitors are strongly advised to wear bright clothing on the ranges, especially in conditions with poor visibility. Full cameo clothing will not be allowed on the ranges without a high visibility item.
2. Tournament rules for outdoor archery (Field archery, 3D archery, etc.)
- a. Archers shall shoot in groups of not less than three and not more than six. Normally the preferred number is four.
In all outdoor archery tournaments, the number of competitors on each target will be limited to a maximum of six archers.
In the event that the number of archers in a shooting style exceeds the allowed maximum number for each range, such styles shall be divided in two groups of equal numbers, each group shooting a similar round but on a different range.
In the case of the Bowhunter tournament, the IFAA 3D Standard Round and the IFAA 3D Hunting Round are defined as "similar rounds". (See Article 20 of the Policy section for additional clarification in the event that over 112 archers are on the range).
 - b. Cubs shall shoot in their own groups with a non-shooting "responsible adult", who is appointed by the Tournament Director. This adult will be allowed to assist the cub archers with their scoring but is not allowed to assist the archer with repairs to archery equipment, coach/instruct the archer(s) or carry their equipment.
 - c. Except where otherwise stated, archers shall shoot in pairs, side by side. In the event of an uneven number of archers in a target group, the last archer shall shoot alone.
 - d. The shooting positions of the group shall be decided by mutual agreement.
 - e. (1) Single marker lay-out:
No archer shall shoot from in front of the appropriate marker. One foot shall not be more than six inches behind or a maximum of three feet to either side of such marker. For all Animal rounds, marked or unmarked, there shall be two markers.
(2) Double marker lay-out:
No archer shall shoot from in front of the appropriate marker. One foot shall touch or not be more than six inches behind or to either side of such marker.
Exec note: For the WFAC / WBHC marker layout, see "IFAA Tournament Rules".
 - f. One group shall not hold up the following group by looking for lost arrows.
Enough arrows shall be carried so that each archer may continue shooting and return to find missing arrows when shooting has ceased.

- g. No archer may practice on any target of a course that is currently being used for purposes of a Tournament. Special practice targets must be provided.
- h. If for any reason a group is holding up another group, mutual arrangement may be made between the Target Captains to allow the following group to overtake.
In the event that two or more groups are held up by a group and there are two or more open targets ahead of that group that group must allow the following groups to overtake.
- i. An archer obtaining the Target Captain's permission to leave the range for any valid reason may be privileged to return to his group and complete the unfinished round. His group may wait for his return but must allow the other groups to pass through. The Target Captain shall set a reasonable time limit for his return, upon the expiry of which, the group will continue. He may make up any targets missed in the interim at the discretion of the Field Captain.
- j. In the event of inclement weather, the Tournament shall continue unless a pre-arranged signal is given by the Field Captain. Archers leaving the range before such a signal shall be withdrawn from the competition.
- k. Targets shall be shot in the sequence intended. Any targets omitted shall be forfeited at the discretion of the Field Captain.
- l. Groups shall not approach or interfere with other groups whilst either is shooting a target, but shall remain separate until all members of the group have finished shooting.
- m. In the event of an equipment failure, after resolving the problem (either the repair of the failed equipment or the use of other equipment, which has passed the bow inspection), an archer may shoot four arrows at a practice target under a Field or Range Captain's supervision.
- n. On all official unmarked distance rounds the archer may use an optical device as long as it cannot be used to measure or indicate shooting distances or angles. Optical devices shall be of the hand-held type and shall not create any obstacle to other archers during the competition. No electronic performance enhancer of the optical device shall be allowed (e.g. optical stabiliser, electronic zoom, picture freezer, etc.). Optical devices intended to be used shall be presented at the equipment inspection and marked with an inspection sticker, which may not be removed during the competition. Cameras may not be used as range finders, and may be used (as a camera) only after all archers in the group have finished shooting the target.
- o. It is the responsibility of the whole group to check before start of shooting whether the face(s) on the butt is (are) the same as specified on the indicator board. In case of wrong face/wrong target(s), the group shall inform the range marshal to attach the correct the face.

3. Rotation rule:

a. Shooting order

i. Field, Hunter and Expert Round

In the event of a Field, Hunter or Expert Round, the archers within the group shall change their order of shooting on target No. 1 and target no. 15; those who shot first (A+B) shall shoot last and those who shot last (C+D) shall shoot first.

Exec note:

At targets 1 and 15 the order shall change from (A+B)/(C+D) to (C+D)/(A+B)

ii. Marked Animal Round and all Unmarked Rounds

In the event of a Marked Animal and all Unmarked Rounds, the archers within the group shall change their order of shooting after each target.

Exec note:

First target: (A+B)/(C+D)/(E+F); Second target: (C+D)/(E+F)/(A+B)

Third target: (E+F)/(A+B)/(C+D); Forth target: (A+B)/(C+D)/(E+F, Etc.

b. Shooting position (shooting side)

For all Rounds the rotation of the shooting position shall apply:

On target No. 1 and target no. 15; Archers who had been shooting from the right side shall shoot from the left side and those who had been shooting from the left side shall shoot from the right side.

Exec note:

In the Field, Hunter and Expert Round the order (A+B)/(C+D) will become (D+C)/(B+A).

In the Animal Round and all unmarked 3D rounds the order (A+B)/(C+D)/(E+F) will become (B+A)/(D+C)/(F+E)

c. An archer may opt, with the consent of the Target Captain, to shoot from the opposite side if he considers himself to be at a disadvantage from his own side at a particular target.

4. Target groups: make-up and function

- a. In IFAA sanctioned tournaments the target groups shall be made up of 3-4 archers in the marked rounds and 3-6 archers in the unmarked rounds.
- b. Archers in the same division shall shoot together on the same range on the same day, unless the number of competitors in that division is too large to cater for on a single range, in which case Bylaws IV H2a shall be applied.
- c. The first day of the tournament the groups shall be made up by the Field Captain. For the other days during the tournament groups shall be made up by score seeding. The top scorers shall shoot together, followed by the next group of scores, and so on.
- d. The target captain for the day shall normally be the archer with the highest score. The archer with the second highest score will be the first scorer and the archer with the third highest score shall be the second scorer.
- e. Shooting order is determined by mutual agreement. Once the order (A, B, C, D) has been established, that order shall be maintained for the rest of that day.
- f. In the event that an archer disputes the score of his arrow(s), the majority opinion of the other archers in the group decides on the score. Such decision is final and cannot be subject to a protest.
- g. The scorers shall keep an accurate account of scores at each target, maintain a running total and compare these at each target.
- h. The target captain shall decide whether or not a face shall be changed.
Exec Note: This allows the TC to decide before the group shoots (Field, Hunter, Animal) or after the group has shot (unmarked animal) for the following group.
- i. Irrespective of any precaution taken by the tournament organisers to inform the competitors daily of the correct scores and names of the archers in each target group, archers are expected to check the correctness of these scores and target

groups and inform the tournament organisers of any errors before the start of the next day's shooting. If no such information is received before the shoot, the seeding and target groups are deemed to be correct. Any necessary corrections shall be made before the start of the shoot on the next day.

j. Failure to comply:

- i. Despite all precaution taken by the tournament organisers, the responsibility to shoot on the correct range and start from the correct target will lie with the archer and any consequences as a result of an incorrect start cannot be subject to a protest.
- ii. It is the responsibility of the Field Captain to assure that competitors are adequately and timeously informed on what range they will be shooting, in which group, with the names of the group members, and from which target to start shooting on the day. This information shall be displayed at the central area, the practice range(s), the individual ranges and, if possible, on the tournament website.
- iii. In the event that archers find themselves on the wrong range and/or starting target, the Range Captain will arrange for the relocation of these archers. This relocation shall not delay the start of the shoot nor shall it delay the target group from starting. Targets missed in this process will be shot at the end of the day's shoot in the presence of the Range Captain and/or Target captain.
- iv. If an archer fails to realise or for any reason ignores that he/she is on the wrong range or starting target (target group) and completes the shoot of that day, the arrows on that day shall not be scored.

5. Tournament rules for indoor archery

- a. A shooting line shall be provided and an archer shall stand so that one foot is on either side of the shooting line.
- b. Pairing of archers shall be done daily by the Range Captain. New pairing will be done after each round.
- c. "Sighters" are permitted if the organisers of the event so allow.
- d. Cubs shall shoot in their own groups, separated from the other age groups. Only "responsible adults" who are appointed by the Tournament Director are allowed on the floor and shall stand at least two yards behind the shooting line. These adults will be allowed to assist the cub archers with their scoring and drawing of arrows (if out of reach of the cub) but they are not allowed to assist the archer with repairs to archery equipment or to coach/instruct the archers.

I. Scoring

1. General scoring rules

- a. No arrows in the target or butt may be touched until the arrows have been scored. Arrows passing through the target face but still in the butt may be pushed back by the Target Captain or deputy who did not shoot the arrow, and scored accordingly.
- b. If an arrow hits the scoring area but bounces off the target or an arrow passes through the scoring area and is not retained in the butt, another arrow, which has been specially marked, shall be shot.
- c. An arrow hitting another within the target and remaining embedded in that arrow shall have the same scoring value as that arrow. Arrows being deflected by other arrows shall be scored by their position.

- d. Scoring arrows: (Read Annexure 3 for more details)
 - i. On the Hunter, Animal and Expert Field target faces as well as the 3D targets a line separates one scoring zone from another. This line lies inside the lower scoring area and therefore the arrow must cut through the line to score the higher value.
 - ii. On the Field target faces where there is no line, the arrow must cut the higher scoring area to score the higher value.
 - iii. The position of the shaft on the surface of the target determines the score. Arrows that enter the 3-D target close to the hairline and do not remain embedded in the target are not counted and no other arrow shall be shot. On 3D targets, arrows sticking in the target stand or base and those in the horns or antlers are not scored. In the event there is no hairline between the base or stand and the actual target, a hairline shall be drawn in manually.
- e. The number of times an archer draws an arrow before releasing that arrow will be limited to four. If the arrow is not then shot it will be scored as a miss. The only exception to this rule will be in a dangerous situation at the discretion of the Target Captain or the first scorer if it is the Target Captain in question for outdoor events or of the Shoot Director / Tournament Director for Indoor events.
- f. In the event of a tie for any award a tie break will be held in the manner described in the tournament rules. A tie break shall be shot after the scores have been verified by the tournament score keeper and shall be shot under supervision of the Field Captain (outdoor events) or the Shoot Director / Tournament Director (indoor events) on the last shooting day of the tournament.

ARTICLE VI - COURSE LAY-OUT REQUIREMENTS FOR ALL OUTDOOR EVENTS

A. General

When setting out a field course the following points are to be adhered to: -

1. Distances used shall be those designated for the round to be shot.
2. All distances shall be correct within six inches; the distance of the target is the distance from the archer's side of the marker to the centre of the butt.
3. All butts must be stable so there is no danger of tipping.
4. Shooting lanes must be cleared so the arrows will not strike foliage or branches.
5. Any person, regardless of height, must have a clear view of the full face of the target.
6. Paths must never pass directly behind a target butt, it is preferred that paths should leave the butt at such an angle that archers leave the line of shooting quickly. Paths and target lanes must be clearly marked and adequate direction signs placed.
7. Target butts must be placed so that misses do not constitute a hazard to other groups of archers. Bales or butts must not leak arrows or be reinforced with any material which could damage arrows or are likely to cause bounce-outs.
8. A practice range shall be provided with two practice butts for each Field distance. Faces shall be appropriate for the next round(s) to be shot.
A separate range of 5 practice butts shall be provided with faces appropriate for the next round(s) to be shot by the cubs.
The practice ranges shall be ready for use three full days before the first round will be shot and shall remain available for use during the entire event. Tournament Officials may restrict the use of practice areas to periods when the tournament is not being actively shot.
Practice range marshal(s) shall be on duty.

B. Safety Requirements

1. No course shall receive approval until all hazards to safety, in the opinion of the Tournament Director, the Field Captain and the Range Marshal have been removed; the ranges inspected for correctness using the required inspection sheets, as part of the Quality Management Plan, and the QMP sheets have been correctly and fully completed and signed off by the Vice-President or his delegated representative. No course shall receive approval until all hazards to safety, in the opinion of the Range Inspector have been removed.
2. If a target butt is situated so that any path, target, road or building is behind at an unreasonable distance, then the target must be provided with adequate backstop.

3. The practice area must be placed so that no paths or roads pass behind the practice butts.
4. A minimum of 25 feet (8.0 meters) is necessary between any paths or shooting lanes parallel to another shooting lane. This minimum permits a tolerance depending on terrain and length of shot, but the distance used must preserve absolute safety.

C. Approvals and Procedure

1. Permanent courses intended to be used for IFAA sanctioned tournaments shall be inspected and approved annually. No alterations are permitted without prior consent to the Range Marshall.
2. At all IFAA World and Regional Tournaments or any other special tournament sponsored by the IFAA, course approval by the IFAA is required. Official approval will be through the Vice-President of the IFAA or his designated representative.
3. For all other IFAA sanctioned tournaments, course approval shall be by the World Council Representative for that particular member and approval shall be for that particular tournament only.
4. The IFAA approval procedure shall be limited to the approval of the Quality Management Plan and associated inspection documents and counter signing by the Vice-President, his designated representative or the World Council Representative, whichever is applicable, of the said documents after acceptance of the ranges by the Tournament Director, the Field Captain and the Range Marshal.

5. An archer may not attend an IFAA sanctioned tournament without an official Score Record/Classification Card.

3. In the Longbow and Traditional Recurve Bow Divisions for Adult and Young Adult men and women as well as for Junior boys and girls there shall be the following classes based on a 28 target round:

Class	Longbow	Traditional Recurve Bow

B	150 - 249	200 - 299
C	0 - 149	0 - 199

4. In all the Historical Bow Divisions there shall be no classes.
5. For the World and Regional Championship Tournaments and other tournaments sanctioned by the IFAA, classes shall be in accordance with this article.
6. There shall be no classes in the Senior, Veteran and Cub division.
7. For sanctioned IFAA tournaments and/or tournaments sanctioned by the member within that nation, classes shall be in accordance with the system adopted by that member.

C. Classification procedures

For the World and Regional tournaments and other tournaments sanctioned by the IFAA, the Tournament Director or designated person shall follow the procedure as stated in this article to determine an archer's class: -

1. Classification of an archer shall be determined by the archer's two highest scores, obtained in the twelve-month period immediately prior to the tournament.
2. In the event no two score records are obtained in the same class-score-range over the twelve months immediately prior to the tournament, the time frame will be extended until three score records are obtained. The two scores within the same class-score-range will determine the classification of the archer. No score recorded twenty-four months prior to the tournament shall be considered.

3. Classification is done by shooting style. An archer who shoots more than one style may have more than one classification. In the event an archer changes style, a new time frame for classification will start from the date of the first recorded score.
4. An archer who has insufficient score records to be classified shall compete in the highest contested class in his/her style in that tournament.
5. An archer shall be reclassified to a higher class if he/she obtains two scores in a higher classification range within a twelve-month period, calculated from the date that the first higher class score was obtained. This reclassification process will be repeated until the archer classifies in the “A” class.
6. An archer shall be reclassified to a lower class if he/she obtains consistently scores of a lower class over a period of not less than twelve months, calculated from the day of the first score used for reclassification.

Clarification:

1. An archer in the FU style has shot two high scores of 505 and 512 in the twelve months prior to a tournament. They are both over 499 and thus the archer is classified in the “A” class.
2. An archer in the FU style has shot two high scores of 480 and 475 in the twelve months prior to a tournament. They are both between 400 and 499 and thus the archer is classified in the “B” class.
3. An archer in the FU style has not shot for six months prior to a tournament, but in the twelve months preceding his last score (18 months prior to the tournament) shot two high scores of 505 and 512. The time span is less than 24 months thus both scores will be taken into account. They are both over 499 and thus the archer is classified in the “A” class.
4. An archer in the FU style has not shot for 23 months but started again two months before the tournament. He only has one score: 480. All other scores are older than 24 months and cannot be taken into consideration. As he has only one valid score, he will be classified in the highest class in his style at the tournament.
5. An archer in the FU style has shot two high scores over the last twelve months: 480 and 502. As he has not obtained two scores in the same class he will be placed in the highest class in his style at the tournament. During the tournament he shoots 504 and his two top scores are now 502 and 504 over the last 12 months. He is now re-classified as an “A” class archer after the tournament.
After that 504 he scores 489, 497, 476 over the next five months after re-classification. He remains “A” class for another seven months. Classification runs over a twelve months period. Only once that period is over will the archer revert back to “B” class.
6. An archer in the FU style is classified as “A” class. Six months before the tournament he changes to BBR and shoots two high scores of 325 and 346. The archer is classified as “B” as long as he shoots that style. It is possible that an archer shoots “A” class in one style and “B” class in another style.

G. Course lay-out requirements

1. Course layout requirements

All relevant course lay-out requirements as defined in Article VI of the By-Laws shall apply.

2. Course layout

In laying out or setting up a Bowhunter course the following points must be followed:

- a. Courses shall be set out for a single Round only for each tournament day. Multiple Rounds set out on the course on the same day is not permitted.
- b. Distances used shall be those designated for the individual round or portion of the round being used.
- c. All target butts must be stable with no danger of tipping. 3D targets shall be freestanding and securely anchored.
- d. Any competitor, regardless of height, must have a clear view of the target. When constructing a CUB only range, take into consideration the reduced heights of the competitors.
- e. Target lanes, areas, etc., are not required to be maintained at the same level of a Field Course. IE: targets may be placed in a reasonably representative area of natural growth. The target must not be purposely obscured from view. While realising some hunters will take a more difficult shot, the organiser must not accept that as a norm. We are presenting representative and competitive rounds, not constructing an obstacle course or a test of acrobatic skills. Some degree of difficulty is permissible, tempered with a balance of consideration for the average and the non-hunting archer. All archers must have a clear view of the target. The total score area must not be obscured.

3. Target position

The 3D target will be positioned so that the scoring area is face on to the archer. For group 1 and 2 targets, the target may be angled towards or away from the archer; however, such angle shall not exceed 15 degrees (i.e. a facing away or towards archer). “Up-hill” or “down-hill” shots shall not exceed 45 degrees.

A target butt (a butt to which the IFAA paper targets is attached in other IFAA Rounds) shall not be set up with the free-standing 3D target. To ensure minimal arrow

damage and/or arrow loss, a back-stop either natural or man-made shall be provided behind each target as follows:

A minimum distance of 10 yards shall be provided between the target and such back-stop.

The natural back-stop shall be the natural terrain which shall be free, as far as is practical, of rock or stone.

An alternative to the natural back-stop is the man-made version using carpet off-cuts, nets or other usable material, which can be suspended in 2 layers. The first layer when hit by the arrow will move with the impact with, in most cases, the arrow falling to the ground. In the occasional occurrence where the arrow passes through the first layer, the second layer, and reduced arrow velocity incurred through passing through the first layer, will stop the arrow.

The carpet, net or other usable material may be suspended between trees, or over a constructed frame, with layers set at 2 feet apart. The height of the suspended carpet should be at least 8 feet from the ground, with the carpet reaching the ground and loosely anchored to still allow the carpet to move under arrow impact. The back-stop should be camouflaged, where practicable, to blend in with terrain.

4. Tree stand shots

No Commercial or “Home-made” actual Tree Stands will be used.

Tree Stand shots may be simulated through the use of Shooting Platforms.

5. Shooting platforms

Shooting platforms may be used to simulate Tree Stands. When used, the platform must be sturdy and solid so as to present no safety hazard to the competitor who must use it. A shooting platform should be constructed to readily accommodate two archers, of any size, at one time.

Even then it is recommended that only one archer be allowed to use the stand at any one time; certainly, never more than two.

The Platform must be constructed so as to provide safe and easy access. Steps must be sturdy, solid and have the ability to be used safely by any competing archer. A hand rail should be provided in most cases to assist in mounting the steps. No rung ladder or other rudimentary device will be acceptable for gaining access to the raised platform.

A railing of no less than three (3) feet in height must encircle the actual raised platform except for the space required for entry by the steps.

Shooting platforms that are not considered to be safe by the inspecting IFAA Official will not be used. Instead, that shot shall be converted to a ground level shot.

NOTE: A platform built against the side of a hill may allow straight access to the platform from the target trail. In such a case, the requirement for steps could logically be waived. The Organiser of the tournament should keep in mind that the purpose of the platform is to provide an elevated shot, simulating a tree stand shot, and not to construct an obstacle course.

The choice of target face lies with the archer at the start of the first Unit and may not be changed during a Round.
- e. For target faces comprising of four targets, a single arrow shall be shot at a target in any sequence. In the event that more than one arrow is shot in a target, only the arrow with the lower value will be scored.

All non-professional archers may enter the event.

Exec note: An archer does not have to be a member of an IFAA association.

C. **Format:**

The WOFAMM shall consist of three Outdoor Flint Rounds.

One Round shall be submitted each month.

Exec note: An archer may shoot more than one Round each month, but only one score shall be submitted.

2. Set out as a seven target "Field" range. Distances are shot in the same sequence as the Flint Indoor Round, with one specific distance for each target. A Round shall consist of two Standard Units, however combining the two Standard Units to make up a range of fourteen targets is also allowed.

D. **Specific rules for the WOFAMM:**

1. The WOFAMM is not an official round of the IFAA, but is included to create interest in outdoor archery and give archers the opportunity to obtain experience in Field archery and variation in shooting distances by shooting arrows over short distances.
2. The WOFAMM will be conducted in accordance with the Rules for the IFAA Indoor Flint Round.
3. Scoring will be the same as in the "Field" Round.
4. Scores shall be submitted to the International Score Recorder in accordance with pre-shoot official IFAA publication.

 - b. The Office holder may petition the IFAA World Council for further clarification beyond that point.
5. All action taken by the President under the provisions of this policy will be reported to the IFAA World Council on a timely basis.

ARTICLE 10 – TOURNAMENT LEVIES

A. Collection.

A levy will be collected by the IFAA from the proceeds of each World and Regional Championship Tournament. Such levy will be based on the total tournament registration and, based on the advertised fees for each person and the total number of entrants (disregarding late fees).

B. Notification.

Within two weeks after the last day of an IFAA sanctioned tournament the host member shall inform the IFAA Secretary of the number of entries in each age group and of the entry fees for each age group to allow the Treasurer to invoice for the sanction levies. Payment of the sanction levies shall be made within 60 (sixty) days after the Treasurer has sent the invoice.

If such levies have not been paid within the time limit the host may lose the “Goodwill deposit” and membership with the IFAA may be suspended until payment is received.

C. Setting the levy.

The levy will be set by the IFAA World Council and may be changed from time to time. The current levy is 15 percent of the registration fees for individuals and teams.

D. GST & VAT

Where the host Nation is subject to GST, VAT or other Government levies on registration fees the IFAA Shoot Levy will be calculated on the net amount of the total registration fees less any such Government charges. The host Nation must quote their official Government registration number under which they are liable for the GST, VAT or other charge and the rate at which such charge is levied.

ARTICLE 11 – CHAMPION OF NATIONS COMPETITION

A. Purpose

To provide a venue in which National Teams may compete against each other for the title “Champion of Nations”. This competition makes use of all IFAA Shooting Styles.

B. Eligibility

Each full member association of the IFAA is eligible to enter a team in the Champion of Nations competition. Archers in each team must be members in good standing of the member association under which the team is formed. Veterans, both male and female, Adults, both male and female and Young Adults, both male and female, of all IFAA shooting styles, are eligible.

The IFAA Professional and the Junior or Cub divisions are not eligible.

A registration fee is required.

C. Tournaments

The system can be applied to all World Championships and Regional Championships; however, Regions may elect to use a different system.

Exec note: At this stage only the WFAC and WBHC are eligible for the CON. The WIAC is at this stage not automatically included as insufficient competitors may attend such an event.

D. Styles

The IFAA shooting styles are divided into four (4) groups, each with their own shooting styles grouped together.

	Groups	Styles		
Group 1	Unlimited Styles	FU	BU	
Group 2	Limited Styles	FSC FSR	BL	
Group 3	Non-sight Styles	BBR BBC	BHR BHC	TR
Group 4	Traditional Styles	LB	HB	

The TR shooting style may be entered in Group 4 in the event that no HB or LB style can be entered. In that case no TR shall be entered in Group 3.

Exec Note: The TR style cannot be entered in Group 3 as well as Group 4.

The TR shall not be entered in Group 4 to replace a “weaker” archer in HB or LB.

One competitor, male or female, is chosen from each style, allowing for a team of maximum 9 archers.

The selection is left strictly to the nation sponsoring the team. A full team consists of nine archers, one from each style.

A team of less than nine may be entered if the nation cannot fill all style slots.

E. Calculation of scores

1. The individual points of each team member is the sum total of all daily points.

Daily points are calculated from the daily score, expressed as a percentage of the world record, as it stands at the start of the tournament, of each individual division in each shooting style. E.g. if the world record in a style is 500 and the archer in the same style shoots 468, the day score of that archer will be $468/500 \times 100 = 93.60$ points.

The maximum points each day is limited to 100 points.

Exec note: Daily scores in the Young Adult division will be expressed as a percentage of the World Record in the Adult division until sufficient data is obtained for a reliable comparison. The scores of the TR division will be expressed as a percentage of the BHR division until sufficient data is obtained for a reliable comparison.

2. The team points is the sum total of the individual team members. Only the highest score in each Group will be used to calculate the team points.
3. In the event that a member association can fill a Group with only one archer, the points of that archer will be used.
4. All members of the Team, including those team members who are not included in the calculation of the team points, can qualify for a CON medal, thus a maximum of nine medals are awarded in gold, silver and bronze.

Exec note: It is important for an association to evaluate the past scores of each potential CON team member. E.g. a score of 500 will obtain higher points for the team in the female or veteran divisions than in the same male division as the world record in that division is normally higher than that in the female and veteran divisions.

5. Example:

See next page.

The example is made up for a three-day tournament with four associations competing for the CON.

ARTICLE 12 – COURSES OF INSTRUCTION.

The IFAA may approve courses of instruction and instruction certification at the request of its member. A committee may be appointed by the President to determine such approval.

ARTICLE 13 – IFAA APPROVED TARGET FACES

A. Field, Hunter, Indoor, Animal and all other approved faces.

All target faces which have been approved by the IFAA will be reviewed and kept in compliance in the following manner:

1. IFAA World Council Representatives will be notified which target faces are no longer in compliance.
2. Manufacturers or member associations will be notified that they have a period of six months in which to correct the specifications of those target faces found to be in non-compliance with IFAA standards.
3. Target faces not in compliance after the six months deadline, will be declared non-legal and IFAA approval will be withdrawn.
4. The IFAA Secretary will oversee the compliance of all IFAA approved target faces on an annual basis. The Secretary will require a written verification from each member association stating that their target faces continue to be in compliance with IFAA specifications. This will be done annually at the same time as re-affiliation is accomplished.
5. At each three-year period thereafter, target faces will be sent to a designated appointee of the Vice-President, for physical measurement and, re-approval.
6. 3-D targets that have IFAA approval, will be monitored as are paper target faces in the preceding paragraphs except that, 3-D targets will not be sent for inspection.

B. Animal faces: shape definition of the high scoring zone

The shape and size of the high scoring zone of the Animal faces is defined as follows, where “A” and “B” will represent the following dimensions:

Group face	Horizontal dimension (A)		Vertical dimension (B)	
1	368 mm	14.5”	229 mm	9.0”
2	267 mm	10.5”	178 mm	7.0”
3	178 mm	7.0”	114 mm	4.5”
4	92 mm	3 5/8”	64 mm	2.5”

All dimensions are measurements on the inside of the line that defines the high scoring zone!

C. Grouping of 3-D target

3D targets will be grouped into sizes using the following equation:

Measure the vertical height of the two or three defined score areas/zones through the centre of the score areas/zones, as illustrated.

Having completed such measurement, allocate targets to the following group sizes:

Group size	Dimension A	
Group 1	> 250 mm	> 9 ⁷ / ₈ ”
Group 2	201 – 250 mm	7 ¹⁵ / ₁₆ - 9 ⁷ / ₈ ”
Group 3	150 – 200 mm	5 ¹⁵ / ₁₆ - 7 ⁷ / ₈ ”
Group 4	< 150 mm	< 5 ¹⁵ / ₁₆ ”

D. Tolerances of scoring zone dimensions of paper faces

1. All measurements of target faces will be taken in both the horizontal and the vertical plane of the target face. Each measurement will be taken through the centre of the target face.
2. A scoring zone is measured from the inside to inside of the relevant dividing line.
3. The maximum tolerance of each scoring zone shall be:

Field and Hunter target faces:

Target size	5 zone	4 zone	3 zone
65 cm	2 mm	3 mm	3 mm
50 cm	1.5 mm	3 mm	3 mm
35 cm	1 mm	3 mm	3 mm
20 cm	1 mm	2 mm	3 mm

Animal faces, high scoring zone:

Group 1	Group 2	Group 3	Group 4
3 mm	3 mm	2 mm	1 mm

Indoor faces:

Target size	5 zone	4 zone	3 zone	2 zone	1 zone
40 cm	1 mm	2 mm	2.5 mm	3 mm	3 mm
16 cm (five spot)	1 mm	2 mm			

E. Approval of 3-D targets

1. Only 3-D Targets that are approved by the Executive Council shall be used in IFAA sanctioned tournaments.

SCORING OF ARROWS

TYPICAL DETAILS FOR EACH TYPE OF TARGET

The basics of scoring:

The IFAA rule states that the line that separates two scoring areas lies in the lower scoring area.

This means dimensions of the scoring areas are measured from the inside of the dividing line, irrespective of how thick the dividing line is. Some printers/manufacturers show thick dividing lines, while others show very thin dividing lines. Although there is no rule on line thickness, modern target faces tend to have very thin lines that are not visible from the shooting line with the naked eye.

For an arrow to score the higher score, this arrow must break through the line, meaning that part of the arrow, even if it is almost not visible, must lie inside the higher scoring area.

This applies to all official IFAA archery rounds.

- ①: High score
- ②: Low score
- ③: Arrow does not cut the line. Low score.

- ⑤: Arrow tears through the paper into the high scoring area, but the shaft lies outside the high scoring area. The arrow will have the low score.
